

## PRODUCER PRICE INDICES IN INDUSTRY<sup>1</sup>, JUNE 2014

### 1. Producer Price Indices on Domestic Market<sup>2</sup>

**Producer Price Index on Domestic Market** in June 2014 remained at the level of the previous month. The domestic prices fell in the mining and quarrying industry by 1.9% and in the electricity, gas, steam and air conditioning supply by 0.1%, while in the manufacturing the prices increased by 0.2%.

In the manufacturing<sup>3</sup>, compared to the previous month the prices went up in the repair and installation of machinery and equipment by 1.3%, in the manufacture of fabricated metal products, except machinery and equipment, in the manufacture of machinery and equipment n.e.c. and in the other manufacturing by 0.4%, while a price decrease was reported in the manufacture of chemicals and chemical products by 1.1% and in the manufacture of tobacco products by 0.9%

**Producer Price Index on Domestic Market** in June 2014 decreased by 0.5% compared to the same month of 2013. The domestic prices fell in the mining and quarrying industry by 6.0% and in the electricity, gas, steam and air conditioning supply by 1.2%, while in the manufacturing the prices rose by 0.3%.

In the manufacturing compared to June 2013, a price increase was registered in the manufacture of tobacco products by 7.5%, in the manufacture of motor vehicles, trailers and semi-trailers by 5.3% and in the manufacture of paper and paper products by 3.4%. The prices decreases were seen in the manufacture of chemicals and chemical products by 8.4%, in the manufacture of food products by 4.4% and in the manufacture of basic metals by 3.3%.

---

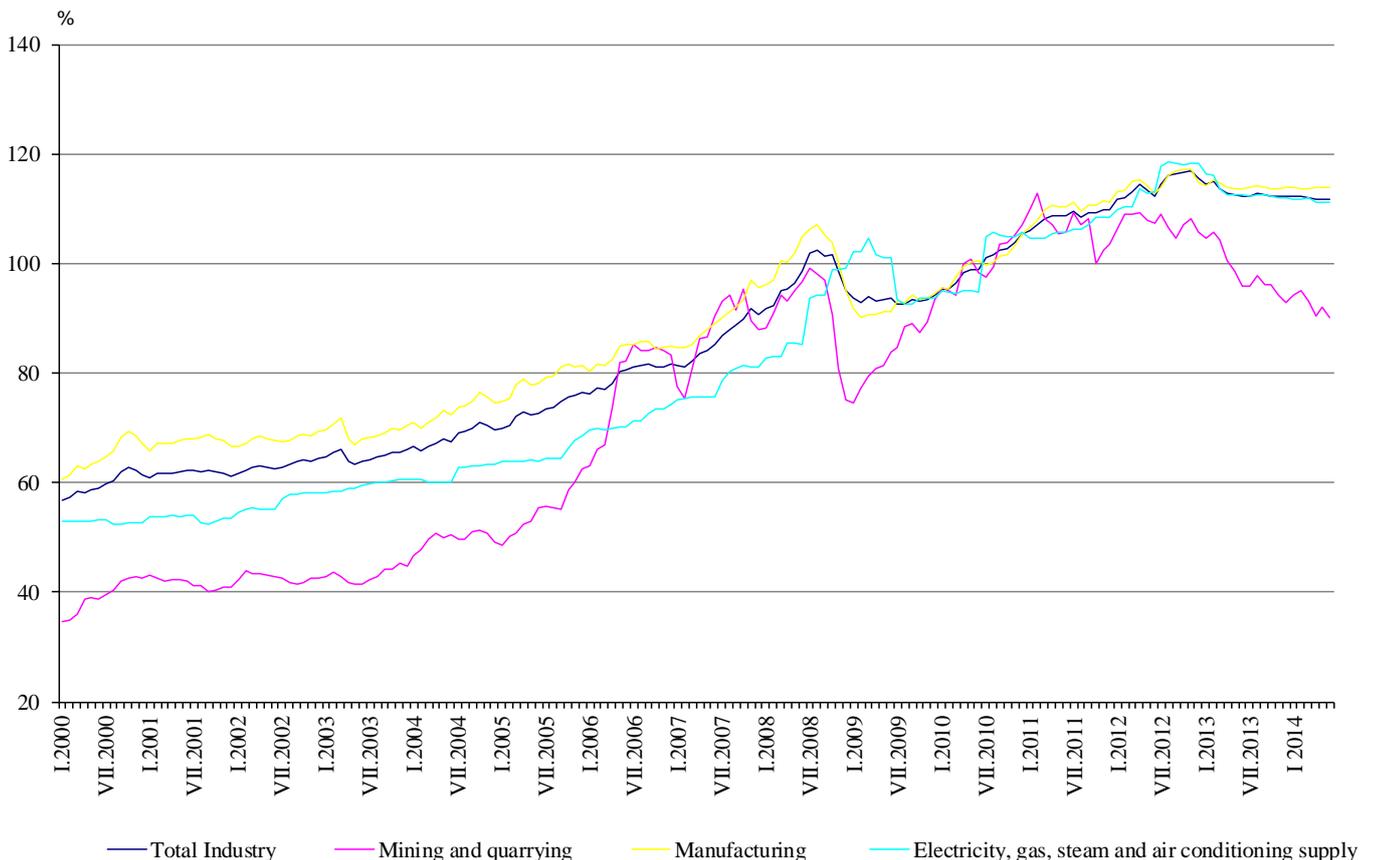

<sup>1</sup> Producer Price Indices measure the average change in the prices of industrial products, which are produced and sold by Bulgarian enterprises. They can be considered as an early measure of the current inflation process in the economy and also they can be used for international comparisons. Information for calculation of Producer Price Indices is received on the bases of monthly surveys on producer prices of industrial products, sold on domestic market and on industrial products sold on non-domestic market. Producer price surveys are based on constant sample of groups of products, and that sample is representative for total industrial production.

<sup>2</sup> Producer Price Indices on domestic market are calculated at constant base (2010) weighed with turnover structure on domestic market.

<sup>3</sup> In the text are not quoted the activities that according to the Law on Statistics are confidential and in this way they are statistical secrecy.

**Figure 1. Producer Price Indices on Domestic Market in Industry  
(2010 = 100)**

## 2. Total Producer Price Indices in Industry<sup>1</sup>

**Total Producer Price Index in Industry** in June 2014 decreased by 0.1% compared to the previous month. Lower prices were registered in the mining and quarrying industry by 2.7% and in the electricity, gas, steam and air conditioning supply 0.1%, while in the manufacturing the prices did not change.

In the manufacturing<sup>2</sup>, more significant prices increases were seen in the repair and installation of machinery and equipment by 1.1% and in the manufacture of other transport equipment by 0.5%, while prices decreases were reported in the manufacture of basic metals by 1.6%, in the printing and reproduction of recorded media by 0.7% and in in the manufacture of tobacco products by 0.6%.

<sup>1</sup> Total Producer Price Index is calculated from Producer Price Index on Domestic Market and Producer Price Index on Non-domestic Market weighted with the turnover structure on domestic and on non-domestic market to the total value of turnover in the base year.

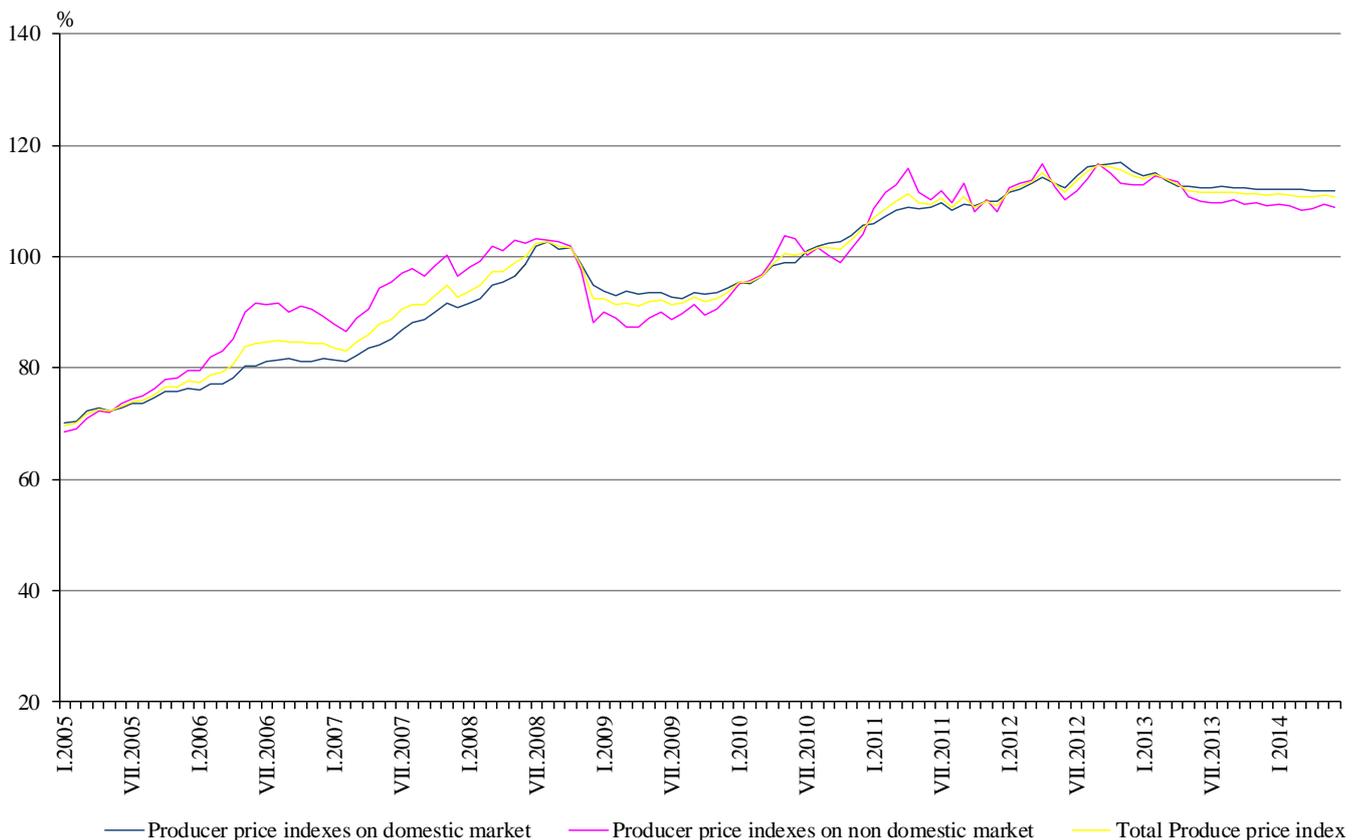

<sup>2</sup> In the text are not quoted the activities that are confidential according to the Law on Statistics and in this way they are statistical secrecy.

**Total Producer Price Index** in June 2014 decreased by 0.7% comparing to the same month of 2013.

In the manufacturing, the prices remained at the level the same month of 2013. More significant prices decreases were seen in the manufacture of basic metals by 5.7%, in the manufacture of food products by 4.4% and in the manufacture of chemicals and chemical products by 4.0%, while the producer prices rose in the manufacture of tobacco products by 4.9%, in the manufacture of beverages and in the manufacture of furniture by 2.2%.
