

GROSS DOMESTIC PRODUCT FOR THE FIRST QUARTER OF 2020 (FLASH ESTIMATES)

Gross Domestic Product (GDP) expanded with 2.4% in the first quarter of 2020 compared to the same quarter of the previous year and with 0.3% compared to the fourth quarter of 2019 according to the seasonally adjusted data.

The Eurostat Handbook on quarterly National Accounts defines the flash estimates as:

„...the earliest picture of the economy according to national accounts concepts, which is produced and published as soon as possible after the end of the quarter, using a more incomplete set of information than that used for traditional quarterly accounts...”

Flash estimates for GDP in the context of general conditions for the preparation of short-term indicators are based on preliminary short-term information (subject to subsequent update and revisions) expert assessments and models for the components of GDP structure, for which direct basic information at the time of calculation is not available.

Flash estimates of GDP for the first quarter of 2020 were prepared within 45 days after the reference period. They are presented in a standard format for publication of quarterly national accounts data - current prices, relative shares of the components in the GDP structure and growth rates as compared to the previous quarter and compared to the same period of the previous year.

According to the Release Calendar, the NSI will prepare and publish preliminary quarterly estimates of GDP for the first quarter of 2020 on June 4th 2020.

GDP in monetary terms, current prices

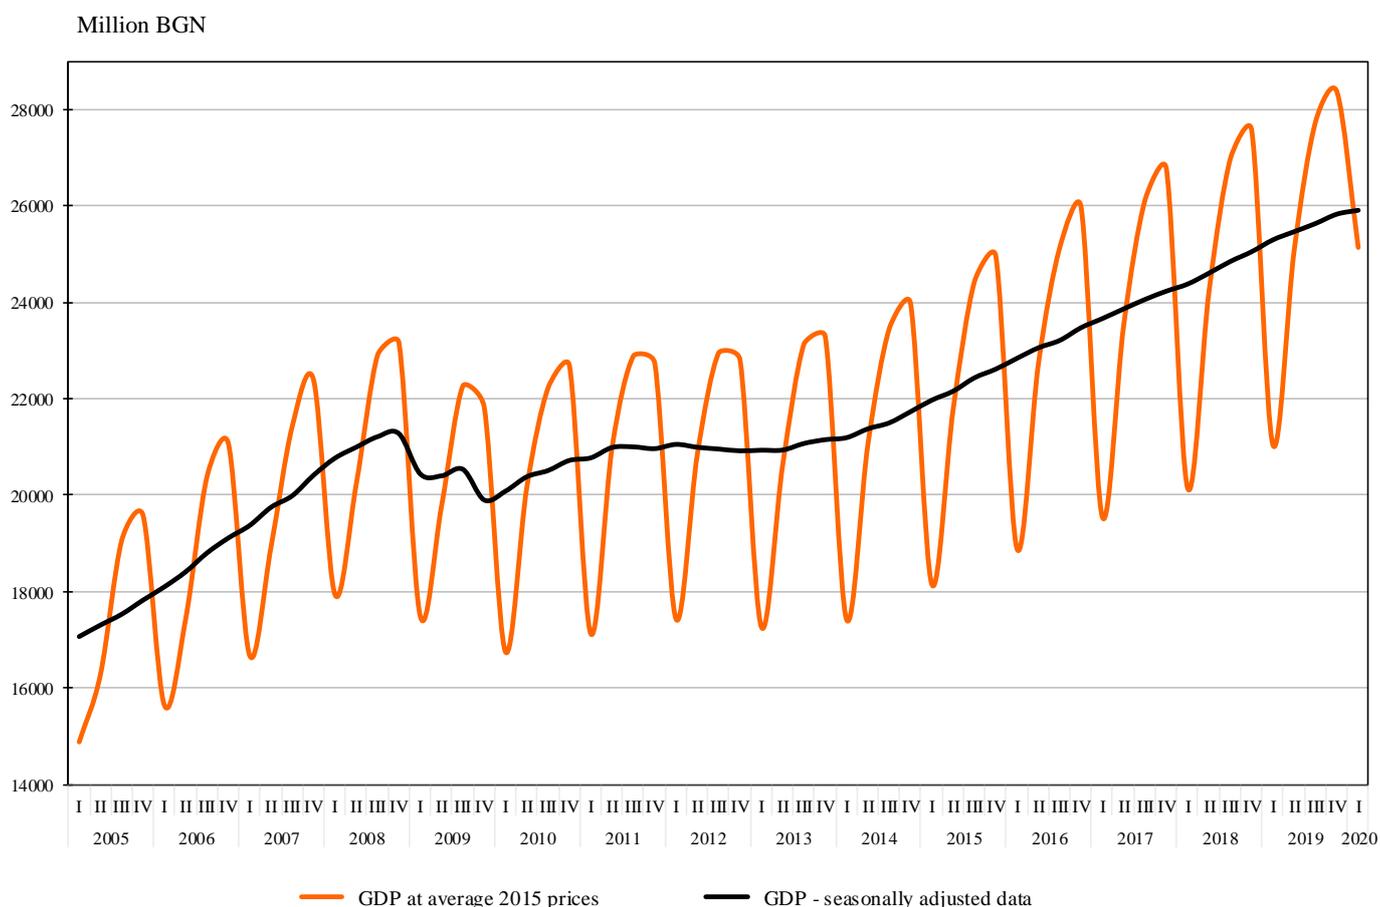

According to the flash GDP estimates for the first quarter of 2020, the GDP at current prices is 25 146.2 million BGN (Annex, Table 1).

Gross Value Added in the first quarter of 2020 amounted to 21 481.0 million BGN.

In the structure of GDP by the expenditure approach the largest share has the final consumption (84.9%), which in nominal terms is 21 346.5 million BGN. In the first quarter of 2020 gross capital formation is 3 649.8 million BGN and has a share of 14.5% in GDP. The external balance (exports minus imports) has a positive sign.

Growth rate of GDP, total and by components

Figure 1. GDP by quarters for the period 2005 - 2020, at average 2015 prices

Quarter-on-quarter growth rates

According to the seasonally adjusted data¹, the GDP growth rate in the first quarter of 2020 is 0.3% compared to the previous quarter (Annex, Table 2). GVA increase in the first quarter of 2020 is 0.1%.

According to the flash estimates by final expenditure, the increase in the export of goods and services by 0.1% contributed to the GDP growth at seasonally adjusted data in the first quarter of 2020 compared to the fourth quarter of 2019.

¹ Seasonal adjustment of statistical indicators in the NSI is organized in accordance with [ESS Guidelines on Seasonal Adjustment](#). The seasonal adjustment of GDP data is made with the TRAMO/SEATS algorithm applied. The set of variables for seasonal adjustment covers gross value added, gross domestic product and its components from the expenditure side.

Growth rates on annual basis

The first quarter of 2020 GDP at seasonally adjusted data increased by 2.4% compared to the same quarter of the previous year. Gross value added increased by 2.3%.

As regards the expenditure components of GDP, the final consumption registered a positive economic growth of 4.1%. Gross fixed capital formation decreased by 5.3% in the first quarter of 2020 compared to the same quarter of the previous year at seasonally adjusted data. Exports of goods and services increased by 1.1% while imports of goods and services decreased by 0.6%.

Annex

Table 1

Gross Domestic Product, First Quarter of 2020¹
(Flash estimates)

		First quarter of 2020	
		Value at current prices - Million BGN	Relative share in GDP - %
1	Gross Value Added	21481.0	85.4
2	Adjustments	3665.2	14.6
3	Gross Domestic Product (1 + 2 = 4 + 5 + 6)	25146.2	100.0
	by final use components:		
4	Final consumption	21346.5	84.9
5	Gross capital formation	3649.8	14.5
6	Balance (exports - imports)	149.9	0.6
7	Exports of goods and services	16847.5	67.0
8	Imports of goods and services	16697.6	66.4
